Dear Neal Patel and Medstar Staff,

I am writing to thank you for the excellent service you, Courtney and your MedStar staff have provided to my practice and my patients. Courtney and your entire staff continually go above and beyond to assist and aid our patients in any and all situations. Our patient's results are always back to us in a very timely manner and if we ever need them stat you are more than willing to accommodate us.

I am also impressed that Courtney comes by frequently to make sure everything is running smoothly and she is always asking if there is anything your company can do to improve services. I truly appreciate how much care and concern your company has for my practice and my patient's.

In addition, Neal as a director provides excellent interpersonal relations with our office too. I am always pleasantly surprised when you come to check on how your company is providing service to us. Whenever I have a question you are quick to answer and always err on the side of making us happy. Truly you treat the medical offices like VIP's and it is appreciated.

I truly thank you and look forward to working more with you.

Thanks,

Tarun Mullick
